

CALL FOR PAPERS

11th IEEE International Workshop on Information Forensics and Security

9–12 December 2019, Delft, The Netherlands

<http://wifs2019.tudelft.nl>

Important Dates:

Paper submission:	July 14, 2019 (23:59 anywhere on earth)
Author notification:	September 15, 2019
Camera ready paper submission:	October 2, 2019
Early registration deadline:	October 30, 2019

IEEE WIFS is the unique workshop series organized by the IEEE Information Forensics and Security (IFS) Technical Committee. It is a major forum that brings together researchers from a large range of areas of information forensics and security to discuss advanced research and developments in several topics. The 11th edition of WIFS will be held in Delft, The Netherlands. It will feature keynotes, tutorials, special sessions, along with oral and poster sessions for technical research. Topics of interest include, but are not limited to:

Applied Cryptography	Information Theoretic Security
Biometrics	Network Security
Communication and Physical Layer Security	Steganography and Covert Communications
Data Privacy and Anonymity	Surveillance
Digital Forensics and Analysis	Usability and Human Factors
Hardware Security	Watermarking and Multimedia Content Protection

Regular Papers: Regular Paper submission to WIFS 2019 can be up to 6 pages including bibliography. All papers should be prepared according to the IEEE conference template that will be provided on the workshop website. Papers accepted and presented at WIFS 2019 will be available in the IEEE Xplore digital library. It is IEEE policy to disallow double submissions, where the same (or substantially similar) paper is concurrently submitted to multiple journals, conferences, or workshops with proceedings. Double submissions will be immediately rejected.

Demos and Work-in-Progress: The Demo and Work-in-Progress session at WIFS 2019 is open to researchers in academia and to industrial exhibitors. Submissions with an emphasis on application related to forensics and security are encouraged. Please see the website for more details.

Authors of papers accepted recently for the IEEE Transactions on Information Forensics and Security or the IEEE Signal Processing Letters will be given the opportunity to present their work subject to approval by the program chairs.

Organizing Committee:

General Chair:
Zekeriya Erkin
Delft University of Technology, The Netherlands

Program Committee Chairs:
Luisa Verdoliva, University Federico II of Naples, Italy
Rainer Böhme, University of Innsbruck, Austria
